- **Installs on your existing system**
- **Tracks vehicles and employees with cards or user-selected PINs**
- **Can control 4 pumps, up to 1000 users**
- **Easy to set up, easy to use**

The OPW Petro Vend 100® with the Bennett 3000 GoPump dispenser, you will have the ideal solution for unattended fueling for small or mid-sized fleets. As a "turnkey system," the PV 100 unit is designed for quick and easy installation. It ships ready-to-use with 50 pre-configured users and requires only power, pulser and hose-control line connections in order to initiate system operation. The PV100® stores dispensed fuel amounts as card- and pump-specific totals, which can be viewed on the display or retrieved with an external USB flash drive.

The Bennett 3000 "GoPump" includes the industry leading SB-100 Meter allowing for years of low maintenance usage.

**Get connected and gain control of
your fuel inventory.**

Prices starting as low as

\$59.00

per month with approved Credit
